A web developer with experience in Full Stack Web Development, I am evolving my career to find potential opportunities in all business sectors. My previous technical training was limited to construction sector skills in architectural engineering, computer aided drafting and construction management. I recently completed the Full Stack Web Development certificate from Rutgers University that included the technical skills listed below. In addition to those skills, my passion for attention to detail and problem-solving were critical to succeeding in developing web solutions to meet the project criteria. I am excited to bring these skills and passion to a junior web developer role.

TECHNICAL SKILLS

Front-End: JavaScript ES6+, React, jQuery, HTML5, CSS3, Bootstrap, Tailwind, Pure CSS
Back-End: Node.js, Express, SQL, MVC, Object Oriented Programing (OOP), Object-Relational Mapping (ORM), Model-View-Controller (MVC), Handlebars, RESTful API
Full Stack: NoSQL (MongoDB), Mongoose, Object-document mapping (ODM), Progressive Web Apps (PWA), MERN (MongoDB, Express, React, Node), GraphQL, JavaScript Web Token (JWT)
Other: Git, GitHub, Middleware, ESLint, Prettier, Bash

PROJECTS

FRONT END
National Parks and Weather | GitHub link - https://github.com/schorij23/Weather-and-Parks-project | Deployed link - https://schorij23.github.io/Weather-and-Parks-project/
