Objective

I am seeking an entry-level position where I can apply my technical training in full stack web development, problem-solving skills, and attention to detail to support a dynamic organization. Open to opportunities in web development, technology support, or business operations.

Professional Summary

Detail-oriented and adaptable professional with experience in web development, construction management, and computer-aided design. Combines strong problem-solving, organizational, and analytical skills with a proven ability to learn new technologies and processes quickly. Completed a Full Stack Web Development certificate at Rutgers University, building modern digital and project-based solutions. Eager to contribute to dynamic teams across technology, business operations, or general office environments.

Core Competencies

- **Technology & Tools:** JavaScript ES6+, React, HTML5, CSS3, Node.js, Express, SQL, MongoDB, NoSQL, MVC, PWA
 - **Professional Skills:** Project Management, Team Collaboration, Analytical Thinking, Process Improvement, Attention to Detail
 - **Software & Systems:** AutoCAD, Microsoft Office Suite, GitHub, Bootstrap, Tailwind, REST APIs, MongoDB Atlas
-

Selected Projects

National Parks and Weather | [GitHub](#) | [Live App](#)

- Built a web tool integrating National Parks and Open Weather API to display five-day park forecasts.
- Collaborated with a team to design an intuitive user experience and deliver on project deadlines.

E-commerce MERN Store | [GitHub](#) | [Live App](#)

Developed a full-stack application allowing users to register, shop, and process test payments with Stripe.

- Implemented secure data handling and user authentication with MongoDB, Express, and React.

Tech Blog Platform | [GitHub](#) | [Live App](#)

- Designed and launched a blog system where users can create posts and comment on articles.
 - Applied MVC architecture, MySQL, and Express Handlebars to support clean and scalable design.
-

Professional Experience

Gilliland and Associates - Greenville, SC

CAD Operator 1 Year

- Created and updated detailed architectural drawings for residential and commercial projects using AutoCAD.
 - Collaborated closely with architects and engineers to meet project timelines and specifications.
 - Maintained accuracy and attention to detail under tight schedules.
-

Education

Certificate - Full Stack Web Development | Rutgers University- New Brunswick, NJ

Bachelor of Science - Construction Management | ITT Technical Institute - Online

Associate degree - Computer Aided Drafting | ITT Technical Institute - Greenville, SC

Associate degree - Architectural Engineering Technology | Greenville Technical College - Greenville, SC

Professional Strengths

- Strong teamwork across technical and business teams
- Organized and dependable; able to manage multiple priorities effectively
- Curious problem-solver who adapts quickly to new systems and tools
- Dedicated to continuous learning and process improvement
